## Corning® Erlenmeyer Flasks

- Corning baffled and plain Erlenmeyer and Fernbach culture flasks are ideal for shaker culture applications and storage
- Like all Corning flasks, the Erlenmeyer flasks are certified non-pyrogenic and sterile Polycarbonate construction: USP Class VI material provides excellent optical clarity and mechanical strength
- Molded-in graduations for accuracy
- Vent cap option for continuous gas exchange while ensuring sterility and preventing leakage
- Individually packaged and radiation sterilised for ease of use
- All flasks have the highest Sterility Assurance Level (SAL) of 10<sup>-6</sup>
- Certified non-pyrogenic

## Corning® TC-Treated Roller Bottles

- Cell culture treated for optimal cell attachment
- One piece seamless construction
- All bottles have printed lot numbers to aid in product traceability
- Sterilised by gamma radiation
- Certified nonpyrogenic
- Easy grip caps are designed for more comfortable manual handling and have a half turn on/off sealing
- Manufacturing from virgin polystyrene

Code	Growth Area, cm <sup>2</sup>	Cap	Inner Pack	Pack	Offer Price, £
