Ecodyst Disruptive Evaporation Technology

Mastercycler

Set new sustainable standards by improving energy efficiency and rates of evaporation

Brought to you by Ireland's totally independent supplier of scientific products

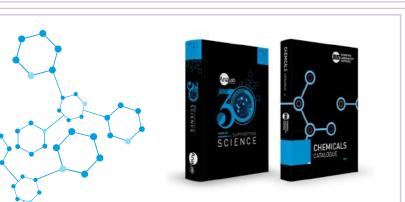

WELCOME FOCUS Autumn 2021 Edition

Welcome to another fantastic issue of FOCUS! Packed with exclusive offers on laboratory products from market leading brands. We also have some exciting NEW products in this edition, including the revolutionary Ecodyst Hydrogen rotovaps and SLS Lab Pro liquid nitrogen and gas generators. Speak to your local account manager to find out how these products can change your lab life for the better!

In addition to this issue, visit our website for supplementary 'FOCUS Extra' online offers, for even more great savings on many other fantastic products.

REMEMBER:

These offers are EXCLUSIVE to Analab and valid until 31st Dec 2021

Product Catalogues

The Analab Product Catalogue (2020/21) features 20% NEW products and the Chemicals Catalogue includes products from leading brands including Honeywell Fluka™, Honeywell Riedel-de Haën, Hydranal[™], Chromasolv[™], Reagecon and SLS Select chemicals.

Whatever your application you're sure to find the product to suit your needs.

Cryolys

Eppendorf 5920 R Centrifuge 3

Delivers extraordinary high capacity in a very compact and ergonomic product design. It has similar dimensions as competing refrigerated 3L models and yet features a superior capacity, making it the ideal instrument for high-throughput applications.

- Multi-lingual operating system, large backlit display, saves up to 99 user-defined programs
- FastTemp pro[®] function for automated pre-cooling
- Aerosol-tight QuickLock[®] caps and lids
- Centrifuge lid with soft-touch lid closure
- Quiet operation to improve your work environment
- Automatic rotor recognition and imbalance detection

Supplied with S-4xUniversal-Large rotor, universal buckets, adapters for 5/15/25/50mL conical tubes and plates. Capacity up to 40 x 50mL/96 x 15mL/ 8 x DWP.

Code	Max Speed, RPM	Max Speed, x g	Temp Range, °C	Offer Price, €	Offer Price, £
F16240	13700 (4250 with supplied rotor)	21194 (4402 with supplied rotor)	-11 to +40	10763.00	8969.00

Eppendorf 5430 R Centrifuge Bundle (2)

Combine the best features of a microcentrifuge (small footprint) and multipurpose centrifuge (versatility) in one instrument. The 5430 R spins rotors for Eppendorf tubes. PCR strips and can also accommodate rotors for microplates and 15/50mL conical tubes • ECO shut-off engages after 8 hours of non-use

- Soft-touch one-finger lid closure for ergonomic operation
- Saves up to 50 user-defined programs
- Automatic rotor recognition and imbalance detection
- Eppendorf QuickLock[®] for quickly opening and closing the rotor lid
- FastTemp pro[®] function for programmable pre-cooling
- Keypad control

Supplied with FA-45-30-11 fixed angle rotor with aerosol tight aluminium lid for 30 x 1.5/2.0mL tubes and A-2-MTP swing out rotor with two MTP buckets and windshield.

Eppendorf 5810 R Centrifuge Bundle

Offers a cost effective solution for medium to high-throughput applications. Combining versatility and capacity for both tubes and plates with a compact footprint.

- Aerosol-tight Eppendorf QuickLock[®] caps and lids
- Quiet operation to improve your work environment
- Automatic rotor recognition and imbalance detection
- FastTemp function for fast pre-cooling
- Automatic ECO-shut off mode to reduce energy consumption
- Built in condensate drain eliminates water accumulation
- Dynamic compressor control (DCC) technology for optimised cooling performance

Supplied with A-4-81 swing out rotor with four 400mL rectangular buckets, a 48 x 15mL/20 x 50mL adapter and FREE FA-45-30-11 rotor for 30 x 1.5/2.0mL tubes with aerosol tight and QuickLock[®] lid.

Eppendorf Innova[®] 44/44R Shaker Incubators

Heavy duty triple eccentric drive providing uniform motion and superb reliability. All units have audible and visual alarms and a timer (0-99.9 hrs) with continuous operation or automatic shut off at the end of the study.

- Can be stacked up to 3 high
- Can accommodate maximum flask size 5L
- Operate at 25 400RPM
- Temperature range is from 5°C above ambient to 80°C
- Refrigerated version offers a temperature range of 20°C below ambient to 80°C (minimum set point is 4°C)
- Dimensions, w x d x h, mm: 1350 x 870 x 735

Eppendorf Innova[®] S44i Biological Refrigerated Shaker Bundle

Large capacity, stackable shaker with temperature control functionality. Designed to provide maximum flask and weight capacity in a compact footprint. Features easy-to-use touchscreen user interface, USB ports to download operational data and Ethernet for addition to customer network.

- X-Drive with semi-automatic counterbalance technology
- High temperature uniformity across chamber
- Easily reach all your samples using the slide-out platform
- Optimise your space with double and triple-stacked configurations
- Create multi-step programs for automated control

Supplied with 1 x universal platform, 1 x microplate holder, 3 x clamps for 125mL/250mL/500mL/1L Erlenmeyer flasks.

New Brunswick[™] S41i CO₂ Incubator Shaker Bundle

The S41i incubator shaker with its six-sided direct-heating profile provides gentle convection circulation of the chamber atmosphere. Combined with precise CO₂ control and built-in technology the S41i offers a highly stable environment for reliable non-adherent cell growth.

- Perforated shelf allows for static incubation at the same time as shaking
- Stable, uniform and vibration-free shaking
- Automatic high temperature disinfection and inner/outer door
- Precise and easy controls with intuitive touch screen
- Humidification included
- Two devices stackable gives increased capacity
- Shaking speed 25 400RPM (25 300RPM if stacked)

Supplied with 1 x universal platform and 2 x sticky pads.

Eppendorf Mastercycler[®] nexus 2

The Eppendorf Mastercycler[®] nexus family offers flexibility and connectivity. With intuitive software for ease of programming and a compact footprint, up to 3 Nexus thermal cyclers can be connected and centrally controlled. Available with a silver block option for fast heating (5°C/sec), universal block option for flexibility or flat block option which allows for the use specialist consumables such as slides without an adaptor. The flexlid[®] concept incorporates automatic height adjustment of the lid allowing for the use of all types of consumables. All blocks feature SteadySlope[®] technology meaning the heating and cooling ramp rates are identical in both gradient and normal operation.

- Protocols can be stored in an individual password protected folder
- Intuitive graphic programming interface

Eppendorf Electronic Multipipette[®] E3 and E3x Dispensers

Functions according to the positive displacement principle. The motor driven dispenser gives full volume control, improved accuracy and reproducibility while reducing physical strain during use. The repetitive dispensing modes contribute to reducing fatigue by decreasing the number of movements for the user; filling the tip once allows dispensing up to 100 times. Accommodates more than 5000 different dispensing volumes between 1µL to 50mL. E3x versions include additional aspirate, titrate and sequential dispense functions.

Eppendorf Research Plus Move It[®] Multi-Channel 3 Pipettes with Adjustable Tip Spacing

The new adjustable tip spacing pipette Move It® accelerates and simplifies synchronous pipetting of a series of samples. A unique design without tubing connections results in increased precision and durability as well as user and sample safety.

- Efficient sample transfers from one vessel type to another.
- Pre-defined settings allow for quick switches back and forth between different formats
- Time-saving thanks to rotatable pipette head 360°
- Tubeless system for reliability and reproducible resultsno cable tangle and tubing-porosity, for consistently reliable robustness and precision

Eppendorf VisioNize® Pipette Manager

- Manage your pipette fleet more effectively and enhance collaboration in teams. Integrated features like »Pipette Set Creation« or »Liquid Type Sharing« support smooth and efficient operations
- Easily convert your conventional Eppendorf Xplorer® and Eppendorf Xplorer[®] plus electronic pipettes into a connected electronic pipette with the WiFi module
- Quicker input of volumes via the VisioNize pipette manager. All settings will be transferred to connected electronic pipettes for an immediate start of pipetting
- Get guidance by the software-embedded Liquid Manager when working with liquids of different viscosity, volatility, or surface tension, or foam-building liquids

BRAND Transferpette[®] Electronic Pipettes

Transferpette[®] electronic pipettes combine the globally proven properties of mechanical piston operated air displacement pipettes by BRAND with the advantages of an electronic device.

- The pipette shaft can be unscrewed and is entirely autoclavable (121°C)
- Five convenient programs: pipetting, reverse pipetting, mixing, GEL-Electrophoresis and dispensing.
- Easy Calibration[™] technology for making guick adjustments of the Transferpette® electronic without tools
- CE-marked according to IVD-Directive 98/79 EG

SLS Lab Pro Safevac Aspiration System 1 VEAR

Designed for laboratory waste recovery and separation of liquid and solid. Can be widely used in cell culture, DNA extraction, microplate waste removal, and any other liquid separation or recovery.

- Sensitive level sensor to prevent liquid overflow during operation
- Waste bottle, tubing and handle are fully autoclavable
- Lid, tubing and handle are easy for disassembling, cleaning and autoclaving
- Wide range of adapters to fit tubes and microplates

OHAUS Adventurer[®] Precision Balances (2)

OHAUS Adventurer incorporates all of the applications necessary for routine weighing and measurement activities. With a wide viewing angle colour touchscreen, GLP/GMP compliance capabilities, and two USB ports.

- Available with or without Ohaus's AutoCal™ automatic calibration system
- 1mg models have a two piece, top-mounted draftshield with doors that open wide, providing ample room for sample placement
- 0.01g and 0.1g models feature large weighing pans

SLS Lab Pro SM Series Micro 5 **Analytical Balances**

The SLS Lab Pro SM Series of balances have been developed for high end micro weighing with the automatic elimination of static electricity at a competitive price. A built in fanless ioniser eliminates static and a large weighing chamber with interlockable slide doors allows operation with either hand.

- One touch automatic calibration
- Internal data memory function for up to 200 sets of data
- GLP/GMP/GCP/ISO compliant output
- Built-in temperature, humidity, and atmospheric pressure sensors
- RS-232C and Quick USB interfaces as standard
- AD-1688 weighing data logger as standard

SLS Lab Basics Mini Magnetic Stirrer 5

Ideal for routine stirring applications.

- Quiet operation with low vibration, noise level (full speed, unloaded): 53dB
- Low-profile design with a small footprint
- Made from an ABS and PC blend that is chemical resistant and easy to clean
- Supplied with 2 stir bars (9 x 35mm) and universal power adapter

Code	Capacity, L	Speed Range, RPM	Dims, w x d x h, mm	Weight, kg	Offer Price, €	Offer Price, £

SLS Lab Basics Mini Vortex Mixer 5

A simple, touch start operation enables exceptional mixing performance with one handed operation, and shaking stops when the tube is lifted.

- Non-slip feet ensure the unit stays in place
- Made from durable ABS and silicone materials to resist most commonly used chemicals
- Quiet operation with low vibration, noise level (full speed, unloaded): 53dB
- Can be used with tubes ranging from 2 to 50mL
- Supplied with replacement silicone cap and universal power adapter

Code	Speed, RPM	Dims, w x d x h, mm	Weight, kg	Offer Price, €	Offer Price, £

OHAUS Multi-Tube Vortexers

OHAUS Multi-Tube Vortexers are ideal for hands-free, high-throughput sample processing. Interchangeable foam racks for vortexing tubes from 10 to 29mm Ø are available. Strong suction cup feet reduce motion and prevent sliding on the work surface. The digital model offers exact speed control for applications that demand repeatable results.

- Easily process up to 50 samples at one time - can be customized for your application with six different tube racks
- For challenging samples, enhance vortex action and create a more vigorous mix with the programmable pulse mode on the digital model
- Supplied with detachable 3-wire cord and plug (included), foam rack for 50 x 12mm diameter tubes

Corning[®] LSE[™] Incubated Shakers

This cabinet-style incubator has a compact footprint and can also be stacked to maximize space efficiency. The built in orbital shaker accepts a large assortment of platforms and clamps that can accommodate flasks, Petri dishes, and test tube racks.

- Outstanding temperature uniformity
- Large viewing area for undisturbed monitoring of samples
- Multiple shelving options
- Precision control shaking mechanism
- Speed range: 20 to 300RPM
- Temperature range: ambient +5 to 80°C

OHAUS Frontier[™] FC5513 (2) Microcentrifuge

The FC5513 is a high-speed benchtop microlitre centrifuge capable of generating 17317 x g, with four optional rotors designed for a range of essential lab applications. Engineered with convenient operation in mind, the FC5513 features a uniquely designed splash-proof front panel with modern touch-wheel control on an intuitive interface.

- Select from a variety of rotors designed for a range of applications
- Offers standard 24 x 1.5/2mL microtube rotors with a biocontainment option
- Can also support spin columns and haematocrit capillary tubes when used with additional rotor options
- Compact design saves valuable benchtop space

Accuris SmartWasher[™] 96 Microplate Washer without Manifold

Benchmark 🥃

Full plates, partial plates, and strips with U, V, C, or flat bottoms are accepted by this fully automated washer. All parameters, including dispense volume, suction time, soak and shake cycles, and shaking speed are easily programmed using the large 4.3" LCD display and keypad. The washer comes equipped with 2 wash bottles, 1 rinse bottle and a waste bottle.

- Precision control of aspiration needle position accurate to 0.1mm
- Minimal residual liquid, <1µL/well
- Auto rinse function eliminates cross contamination
- Up to 100 wash protocols can be customised and stored
- Liquid level sensors in wash and waste bottles
- Wash protocols can be transferred via flash drive
- 8 or 12 channel manifold sold separately see Analab website

Tecan Spark[™] Microplate 1 Reader Bundles

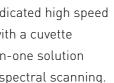

Spark provides unparalleled wavelength accuracy, with a dedicated high speed monochromator for absorbance measurements. Together with a cuvette port and the patented NanoQuant Plate™, it provides an all-in-one solution for ELISAs, low volume DNA/protein quantification and fast spectral scanning. With its unique Fusion Optics for fluorescence, allowing any combination of filters or monochromators on

both the excitation and emission sides for every measurement; users no longer have to choose between sensitivity or flexibility for their assays. A platform that allows researchers to freely configure the reader to their current needs, and is fully upgradable to access other techniques and features in the future.

Corning® Automatic Cell Counter

Corning[®] Cell Counter can perform a single cell count in less than three seconds. It can utilise the CytoSMART[™] cloud app to process the images in the Microsoft Azure Cloud Computing Platform. This means that it can analyse the images faster than any existing on board processor. The cell counter uses a sophisticated Deep Neural Network for cell detection.

- State-of-the-art image analysis software allows for optimal accuracy
- When Trypan Blue is added the system can also detect cell viability
- The cell counter can detect clusters of cells, which leads to accurate cell counts of highly concentrated samples (up to 1 x 10⁷ cells/mL)
- Works with common reusable glass hemocytometer, no consumables required
- Instantly generates a report containing the counted cell concentrations and viability with the image of the counted sample and the counted cells (live and dead) clearly indicated
- 5MP CMOS camera

Accuris QuadCount[™] Automated Cell Counter

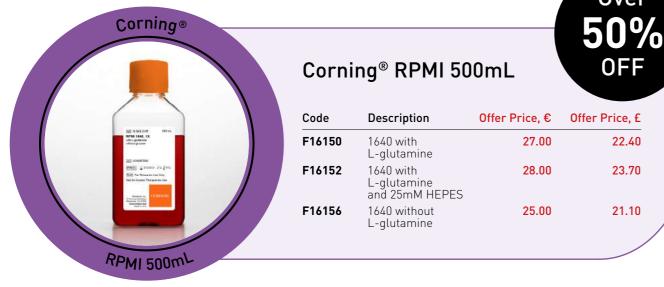

The Accuris QuadCount[™] improves on the simple technique of brightfield microscopy by utilising an LED light source, precision optics and a high resolution CMOS detector. A finely tuned, motorized XYZ positioning stage provides for extra fine focusing and ability to capture multiple images. The advanced software eliminates human bias in dead/live determinations, reduces counting errors, saves time, and improves efficiency. The QuadCount utilises a unique 4-chambered disposable QuadSlide[™], four samples can be processed in one slide.

3 count modes available to analyse different sample volumes:

- Quick mode: 0.15µL / 20 seconds (1 image frame)
- Normal mode: 0.9µL / 30 seconds (6 image frames)
- Precise mode: 3.6µL/ 100 seconds (24 image frames)

Getinge Lancer ULTIMA 910LX Freestanding Labware Washer Dryer Package

The Getinge Lancer ULTIMA 910LX freestanding washer offers a range of labware loading options using baskets, injector racks or combination racks for the best high capacity processing of multiple labware types in the industry. As standard all units are delivered to point of use, installed by qualified engineers and commissioned to GETINGE Lancer standards.

- Touchscreen controller 3.5" colour stores up to 40 programs
- HEPA filtered direct injection drying
- Low pressure valve and pump kit for trouble free DI water connection
- Steam condenser for collapsing exhaust vapor
- 2 chemical dosing pumps to dispense detergent and acid rinse
- 2 chemical level sensors for notification when chemicals are low
- 2 wash levels and runner positions

Package includes: Ultima 910LX Laboratory Glasswasher, racks (PST basic flat mesh basket and 36 IXLC 36 injectors long and short Ø 6mm), 3 years warranty and service cover, plus 3 x 10L bottles of detergent and 3 x 10L bottles of rinseaid.

Thermo

Thermo Scientific[™] Heratherm Ovens

Thermo Scientific[™] Heratherm[™] general protocol ovens are designed for daily laboratory work. Featuring temperature uniformity and low energy consumption, with unique door design and highly efficient, insulation-reducing heat emission.

- Gravity convection provides gentle air flow and minimal drying out
- Operating temperatures from 50°C to 250°C
- Automatic over-temperature alarm system
- Built in timer
- Corrosion-resistant stainless-steel chambers with rounded corners
- Large, easy to read vacuum fluorescent display
- Microprocessor-controlled touch button operation
- Doors can be opened over 180°C

Code	Capacity, L	Offer Price, €	Offer Pri
F16226	60	1048.00	87
F16228	100	1544.00	128
F16238	180	2105.00	175

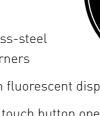

SLS Lab Pro Laboratory Ovens

Chamber manufactured from bright polish stainless steel lagged with high efficiency thermal insulation. Digital temperature control up to 250°C with program feature run back timer. Over temperature auto set and over temperature protection. Single insulated door, lockable with 2 point door engagement for an even seal.

- Door chime when left open
- Anti-bacterial paint finish
- Temp range ambient +5°C to 250°C
- PID digital LED display showing actual or set temperature, resolution 0.1°C
- Fan convection from 0% variable to 100% for forced air circulation
- Temperature sensor fail alarm with error reporting
- Shelf runners adjustable in 20mm steps vertically

Benchmark UV-Clave 2 **UltraViolet Chamber**

Short-wave UV light is an effective method for the disinfection of surface DNA, RNA and microorganisms. Highly focused UV irradiation is used to disinfect tools, vessels and other research items, eliminating up to 99% of surface contamination. Includes powerful UV-C bulbs on both the top and bottom of the chamber with a shelf that allows for >90% of UV-C light transmission and highly reflective chamber walls, the result is true 360° exposure.

- Integrated auto shut-off prevents illumination when the door is open
- Improves quality of PCR research by reducing potential contaminants
- Adjustable cycle time

with 2 wire and 1 transparent

shelf

Astell Swiftlock Autoclaves Front Loading

The Astell Swiftlock range is fitted with heaters in the base of the chamber and is ideal for sterilising liquids (media), discard, glassware and laboratory instruments.

- A fully programmable touch screen controller
- An electropolished stainless steel chamber
- Holdwarm and delayed start features
- Over temperature protection
- Cooling lock
- Safety valve test
- Emergency stop button
- External pressure gauge

ECO-FRIENDLY SOLUTIONS FOR STERILISING LIQUID WASTE

BioSink & Autoclave Combo

This unit features a top-loading autoclave and an Astell BioSink. Any wastewater washed into the self-contained washbasin of the BioSink is sterilised using heat before it is dispatch to the drain.

Contact Astell for more information about the standard or customised BioSink & Autoclave Combo unit.

• Validation port and drain valve

Astell (2)

Thermal Batch EDS

This Effluent Decontamination System (EDS) captures all material that is washed down a facility's drains, which it then sterilizes with heat before dispatching to the sewer.

With a configurable design and structure, these units can be built to handle volumes of effluent from sites of any size.

Labogene CoolSafe Superior Touch 95-80 Freeze Dryer Bundle

- Touchscreen controller and display of temperature, pressure and time during operation
- Large capacity, seamless stainless steel condenser with external cooling coils and electric de-icing as standard
- Front-loading for ease of access, loading and supervision
- Fully automatic control of pre-freeze in 5 steps. - and primary and secondary drying in 10 steps. Controlling shelf temperature from -80°C to + 50°C for correct ice crystal formation and freeze drying
- Condenser ice capacity of max. 10kg/24 hours
- The chamber can accommodate from 2 to 8 electrically heated shelves with trays, giving a total area ranging from 0.3m² to 1.2m²

- Labogene Scanvac CoolSafe Touch 95-15 Freeze Dryer Bundle
- Freeze-drying with programming and storage of protocols for full research and method development
- Touchscreen controller and display of temperature, pressure and time during operation
- Large capacity, seamless stainless steel condenser with external cooling coils, heavily insulated to conserve energy
- Condenser ice capacity of max. 6kg/24 hours
- 15 litre condenser capacity and -95°C temperature

Ecodyst Disruptive Evaporation Technology 👩

Set new sustainable standards by improving energy efficiency and rates of evaporation - saving money, time and your carbon footprint.

Ecodyst Hydrogen® Rotary Evaporator

The high-performance all-in-one rotary evaporator. Revolutionary self-cooling condenser. Efficient. Smart.

Ecodyst EcoChyll X1

A powerful, small footprint, energyefficient smart self-cooling condenser that upgrades any brand of rotary evaporator.

ecødyst

Proprietary first-in-

class highly efficient metallic condensers for rotary evaporators

Direct self-cooling technology that truly eliminates dry ice and antifreeze chillers

Environmentally friendly, energy efficient and sustainable

SLS Lab Pro NG1-1 Nitrogen Gas Generator

LABGAS+ NG is the latest range of nitrogen PSA laboratory gas generators from SLS. Utilising the reliable and efficient PSA technique of separating nitrogen and oxygen to produce high quality nitrogen gas at various flows and purities. The generators are controlled using the latest in HMI touch screen technology to display the process in real-time, inlet/outlet pressures, trend graphs and much more.

- Range of flow-rates
- With or without internal oil-free air compressor
- Compact and quiet design
- Purity 99.9995% 98%
- Auto-run facility

SLS Lab Pro TRITON2 Liquid Nitrogen Generator

NEW

TRITON2 and TRITON2+ are the latest 'air-cooled' liquid nitrogen generators from SLS. Utilising the lowest powered cooling system to make TRITON2 the most efficient small 10L/day LN₂ production system available. The liquid nitrogen is stored within a suitable sized vacuum insulated tank and the product can be dispensed using its specially designed front loading flask dispenser.

NEW

- Air cooling, no water chiller required
- Internal air compressor
- Nitrogen produced using our own PSA nitrogen generator
- LN₂ at 99% purity
- Nitrogen injection system for pre-cooling of gas prior to liquefication's
- All cryogenic parts are vacuum insulated
- Colour touch screen control
